Dear Sir / Madam

Appendix 2 of the Active & Healthy 4 Life Report contained errors, which are corrected in the attached version, marked Replacement Appendix 2

Yours faithfully
JEAN HUNTER
Chief Executive

Requests for a large print agenda must be received at least 48 hours before the meeting.

AGENDA

**4. Active & Healthy 4 Life (Exercise Referral) Scheme
(Replacement Appendix 2)**

PAGES
1 - 2

Sports Centres currently operating Active & Healthy 4 Life scheme with recommendations

| Sports Centre | Recommendation | 2015/16 referral data relative to 2014/15 |
|---------------|---|--|
| Cambourne | Review over coming months | <p>Referrals are down year on year.</p> <p>Communication with this centre has been an issue, and no referral data has been supplied to date. The instructor left in December 2015.</p> <p>A new instructor is due to start on Feb 2016. This instructor already works at a number of centres where she is very pro-active. We anticipate this will have a positive impact at this centre.</p> |
| Comberton | Continue as a prime location | <p>An increase in referrals year on year due to a new instructor and local surgery presentation.</p> <p>Communication with this centre has been an issue. The instructor left in September 2015.</p> <p>A new instructor started in October 2015, and this, along with a very positive meeting at the GP surgery, has led to an improved rate of referrals.</p> |
| Cottenham | Review over coming months | <p>This centre was using level 2 qualified instructors. As a consequence a new instructor appropriately qualified at level 3 referral started in September 2015. We are monitoring this to see if referral rates improve as this centre has historically had a low level of referrals.</p> |
| Eaton | Close | <p>This centre was piloted from April 2015. Despite a visit to the local GP surgery and significant local promotion (leafleting, Open Day and press release), referrals to this centre have been insufficient for it to be financially viable for the centre.</p> |
| Gamlingay | Review over coming months | <p>Review to identify the reasons why the centre has diminishing numbers of patients accessing the scheme, and whether this trend can be reversed.</p> |
| Impington | Continue as prime location | <p>Referrals are on target to match 2014/15 due to a new referral manager and instructor staff who have been in place from April 2015. This centre is relatively recent and the scheme continues to develop. A meeting with the local surgery is scheduled for 18 January.</p> |
| Linton | <p>Review.</p> <p>Continue to make efforts to communicate with this centre to establish the future of the scheme.</p> | <p>The scheme was suspended by the centre in June 2015 following the departure of the instructor. Following a meeting in July 2015 the centre was not prepared to continue the scheme until their new financial year, September 2015. The manager subsequently left and despite efforts to contact the centre no communication has been forthcoming.</p> <p>Historically, prior to 2014/15 the centre had a much lower level of referrals. The instructor in 2014/15 was hugely proactive in communicating with the local surgery to generate the high number of referrals.</p> <p>No funding support has been given for the year 2015/16.</p> |
| Melbourn | Continue as prime location | <p>This centre has run with very consistent staffing and reporting, and links proactively with local health professionals and residents.</p> |
| Sawston | Continue as prime location | <p>Referrals are on track to match or exceed 2014/15. This centre has run with very consistent staffing and reporting,</p> |

Active & Healthy 4 Life Report to Portfolio Holder Meeting 28 January 2016 Appendix 2 FINAL (This replaces version circulated earlier)

| | | |
|----------|----------------------------|---|
| | | and links proactively with local health professionals and residents. |
| Swavesey | Continue as prime location | On track to match 2014/15/ Despite consistent staffing and reporting, number of referrals remain low at this centre. We are planning to work more closely with this centre. |
