2. New Waste Service Software to be Launched

A new computer system will be installed in recycling and waste collection trucks and begin being used by back-office staff this week. This will replace separate older systems used in South Cambs and Cambridge with one which will be used across the shared waste service in both councils. This will allow back-office processes to be streamlined, make it easier for collection crews to log issues and be made aware of changes to their rounds (such as new Assisted Collections), and allow residents to view some real-time information about their collections on our websites.

Please contact me if you want further details.
