Dave and CRF family

Thank you so much for taking the time to explain the situation further when you have so much more to be dealing with. As a supporters and volunteers, we have had nothing but wonderful experiences with this awesome festival and will do anything we can to help to get it up and running for 2024. We are both so sorry to hear about your health problems Dave and wish you much better health in the future. Please let us know if there is more we can do. Much love to the team
Carron and Debbie

[View this email in your browser](#)**Open Letter to the Cambridge Rock Festival Family****Dear All**

Thank you everyone for all your supportive messages since our sad announcement. Our first priority was to let everyone know as soon as possible given the short time we had until the Festival. We would now like to give you some further details as to what led to the devastating decision to postpone this year's Festival.

First a little background...

Those of you that love the Festival as we do, know that Dave has had a number of health issues over the past few years. Not least suffering a haemorrhage in both eyes before and after the Festival last year which required waiting for operations that, thankfully, put things right. At one point Dave was in effect almost blind and unable to read anything on any devices; which given the amount of paperwork that goes with running a Festival made things extremely difficult. Dave is still unable to drive as a direct result of this.

The CRF team are a small close-knit group of volunteers that work, almost all year-round on top of their day-
