Support for smaller festivals/CRF

1 message

To those involved.

I wish to add my voice to the support of the continued operation of CRF - and other small festivals, of all kinds, across the country.

I would not have been able to attend this year's CFD which has now been cancelled. However, I have noticed the increased number of cancelling of smaller shows (agriculture/craft/music) as councils increasingly ask for unjustified fees and licence conditions to be met.

It is very sad that such a situation has been reached for CRF 2023.

I wish CRF every success in years to come.
