NB a Unless additional grants and/or contributions become available or the Council makes recourse to borrowing as a funding source.

b Since the estimates were approved, the Government has changed the method by which it provides financial support for housing Capital expenditure. As a consequence, additional grant income of £356,000 will be available in the current year and this sum has been added to the grants funding. It is anticipated that there may be further grant funding from this source in future years (although this is likely to be at a lower level).

c It has been assumed for the purpose of these estimates that a legislative change to allow the Authority to retain 100% of receipts from equity share sales (provided they are used for housing purposes) is made by April 2007, with pooling having to be complied with for 2006/07.
