Subject: Update on Future Code of Conduct

Blind carbon copied to District Councillors, Standards Committee, Parish Councils, CPALC

Dear all

As promised, we are forwarding the latest news on changes to the Standards framework. Last Thursday in the House of Commons, Eric Pickles, Secretary of State for Communities and Local Government said in response to a question about how members of the public will be able to hold councils and councillors to account, "We have been in discussions with the Local Government Association and we will have a code of conduct, which seems to me to be a sensible way of doing that".

There isn't any further information yet, either from Communities & Local Government or from the Local Government Association, but we will forward it when we receive it.

Kind regards
Holly
