

SOUTH CAMBRIDGESHIRE DISTRICT COUNCIL

REPORT TO: Housing Portfolio Holder

18 January 2012

AUTHOR/S: Executive Director (Operational Services) / Corporate Manager (Affordable Homes)

AFFORDABLE HOMES HEALTH AND SAFETY

Purpose

1. To update the Housing Portfolio Holder.

Background

2. The Council's Affordable Homes section is responsible for a wide range of health and safety matters. These include the safe maintenance of the fabric of Council houses, duties towards homeless applicants, safeguarding duties towards vulnerable children and adults and health and safety considerations for staff working with equipment and lone working.
3. This regular update focuses on five of the key issues, which are overseen by Affordable Homes:
 - Gas safety
 - Electrical safety
 - Fire risk assessments
 - Asbestos
 - Legionella
4. The following issues have arisen since the last report to the Portfolio Holder:

Gas safety	We are still maintaining zero compliance on gas servicing, and having a good return on our ES properties sending in their gas inspection certificates. 3097 gas installations have been serviced since 1/4/11, and 2247 repairs have been completed in the same period.
Electrical safety	<p>The contract has been awarded to Scottish & Southern Electric. This covers all electrical rewiring and upgrading works. The first batch of 41 properties has been passed to them for electrical upgrade works. 6 have been completed and 58 properties have had electrical upgrading works carried out by the DLO since 1/4/11.</p> <p>A programme of electrical surveys is planned for 2012/13, which will ensure that all Council owned properties will have had an electrical inspection within the last 5 years.</p>
Fire risk assessments	<p>Following the recent independent risk assessment the programme of replacement front doors is underway. To date, 32 have been completed, with a further 2 in progress.</p> <p>Work is now being started to ensure that fire safety compliance</p>

	is up to date in all of the sheltered housing communal rooms.
Asbestos	Training is being arranged for front line staff on asbestos awareness.

Electrical Tests

Asbestos Surveys
