

## **Appendix C**

### **Comberton Village College**

Since the college changed status to an academy they no longer invite me to attend any of the Governor's meetings so I can provide no update.

Instead we have the arrangement that if any of their committees require any help from either the District or County Council they will contact me by email. Although this is perhaps not the best use of their council representative as they are missing out on any input from me, it was a decision made at Governor level.

Cllr Alison Elcox
