

Appendix C

WLIDB November 2015

The WLIDB would like South Cambs District Council to write to the Environment Agency and asking that they continue maintenance funding to IDB's, there is an understanding that such a letter had already been written with no response. Is this correct or not, if not then I ask that a letter is written to that effect.

A document has also come to light regarding the maintenance of the roadside ditch on the northern side of Bannold Road which shows that District Council is responsible for this. With this in mind I would hope a maintenance schedule would be drawn up with action plans.

Another document regarding Bannold Road has also emerged which I will forward on to the Planning Department as I am sure they will find it very interesting. Before Cam Locks was built Anglian water confirmed that the public foul water sewer would be able to accommodate the foul water flows from a development of 120 dwellings. Well 90 were built on Cam Locks so that leaves 30 more dwellings but Morris Homes are building 60 dwellings. Problems ahead.

Cllr Peter Johnson

Waterbeach, Landbeach, and Chittering Ward.
