

## **Main Modifications to the South Cambridgeshire Local Plan (Composite Version)**

The following schedule includes Main Modifications to the South Cambridgeshire Local Plan from Chapter 6 of the Main Modifications consultation (Jan 2018) (RD/MM/010), and South Cambridgeshire main modifications from the Proposed Modifications Joint Consultation December 2015 (RD/MC/010), submitted to the Inspectors in March 2016 (RD/MC/150).

The modification numbering used in those documents has been replaced with a new modification number.

<b>Chapter 1: Introduction</b>			
SC1	7	After paragraph 1.17	<p>Add new Policy LP/1 and supporting text (new paragraph 1.17a):</p> <p><b><u>‘Policy LP/1: Superseded Policies referred to in Adopted Area Action Plans</u></b></p> <p><b><u>Where policies of the Local Development Framework referred to in adopted Area Action Plans are superseded by policies of this Local Plan, the more up to date Local Plan polices will be applied, as set out in Appendix Ba.</u></b></p> <p><b><u>1.17a The adopted Area Action Plans remain part of the development plan, and in places make reference to policies in other parts of the Local Development Framework, in particular the Core Strategy DPD and Development Control Policies DPD. For clarity on the policies to be applied in decision making involving the Area Action Plan sites, where reference is made in an Area Action Plan to a policy elsewhere in the Local Development Framework, the replacement policy in the Local Plan will apply. A schedule is included in Appendix Ba of the plan, identifying the relevant references in the adopted Area Action Plans that are superseded by the Local Plan and the Local Plan policies that will be applied.’</u></b></p>
SC2	7	After Paragraph 1.20	<p>Add two new paragraphs after paragraph 1.20:</p> <p><b><u>‘Strategic policies and neighbourhood planning</u></b></p> <p><b><u>1.21 There is a list of basic conditions in the Town and Country Planning Act 1990 that must be met by a Neighbourhood Plan before it can be</u></b></p>

Appendix D includes a list of the identified strategic policies to provide clarity for neighbourhood plan purposes.’</u></b></p>
<b>Chapter 2: Spatial Strategy</b>			
SC3	15	Paragraph 2.11	<p>Amend paragraph 2.11 to read:</p> <p>‘2.11 The local authorities in the Cambridge Sub Region Housing Market Area have been working together for some time on a range of planning and housing issues and have prepared a joint SHMA, which was updated to inform the new Local Plans being prepared by Councils in the area. The <a href="#">Cambridge Sub Region SHMA 2012</a> identifies the objectively assessed need for housing in South Cambridgeshire and all other districts in the Cambridge Sub Region housing market area for the period 2011-2031 (Chapter 12). The SHMA considers jobs forecasts as a key part of the analysis of the overall number of homes required to meet the development needs of the area for the period 2011 to 2031. It identifies the <del>objectively assessed</del> need for 22,000 additional jobs and 19,000 new homes in South Cambridgeshire. <b><u>Additional independent technical evidence was prepared in 2015 to further consider need for new housing taking account of national guidance published after the plans were prepared. This identified the full Objectively Assessed Need for South Cambridgeshire as 19,337 homes. This has been rounded to 19,500 in the housing target for the plan period.’</u></b></p>
SC4	15	After paragraph 2.12	<p>Add new paragraph 2.12a:</p> <p><b><u>‘2.12a A Memorandum of Understanding was also agreed between Cambridge City Council and South Cambridgeshire District Council in</u></b></p>

			<p><b><u>September 2014, which agrees that the housing trajectories for Cambridge and South Cambridgeshire, as updated each year in the Annual Monitoring Report, will be considered together for the purposes of phasing of housing delivery, including for calculating 5-year housing land supply in development management decisions that concern housing development.'</u></b></p>
SC5	18	Add new paragraph to paragraph 2.17, 3rd bullet point	<p>Paragraph 2.17, 3rd bullet point: add new fifth paragraph:</p> <p><b><u>'In response to issues raised by the Inspectors during the Local Plan Examination, the Councils commissioned a new independent Inner Green Belt Review in 2015. This also concluded that beyond those locations already identified in the submission Local Plans it is unlikely that any development could be accommodated without substantial harm to Green Belt purposes (in most locations around the edge of the City). Additional work was carried to consider sites on the edge of Cambridge on an equal basis with other sites, through transport modelling and Sustainability Appraisal. Work was also undertaken on an updated Infrastructure Delivery Study and Viability Report with a Development Strategy document that drew together the findings of all the additional work. The Development Strategy Update and the Joint Sustainability Appraisal Addendum set out how the issue of Green Belt was considered through the plan making process, meeting the requirements of paragraphs 84 and 85 of the NPPF to consider the sustainability impacts of developing outside the Green Belt compared with removing land from the Green Belt for development. This work confirmed the approach to the development strategy. Further work was also undertaken to demonstrate that the transport measures necessary to support sustainable new settlements are capable of being delivered. The Greater Cambridge City Deal (now known as Greater Cambridge Partnership) provided a position statement in March 2016 that confirms the City Deal partners are wholly committed to delivery of the infrastructure programme for the benefit of existing and future residents and businesses through the provision of an enhanced transport network that provides good quality connectivity between homes and jobs, including supporting and securing new development provided for in the Local Plans</u></b></p>

SC6	19	Add new bullet point to paragraph 2.17, 5th bullet	Paragraph 2.17, fifth bullet: add a new final fifth sub bullet point:  <b><u>'The Joint Strategic Transport and Spatial Planning Group (JST&amp;SPG) considered the additional evidence prepared in 2015, and confirmed the approach.'</u></b>

SC8	20	Paragraph 2.22 (table)	Amend the headings and figures in table at paragraph 2.22, and add source.  <i>Refer to table at the end of this schedule.</i>
SC9	23	Policy S/4: Cambridge Green Belt	Add to the end of Policy S/4:  <b><u>'New development in the Green Belt will only be approved in accordance with Green Belt policy in the National Planning Policy Framework.'</u></b>
SC10	24	Paragraph 2.32	Amend paragraph 2.32 as follows and separate out the last sentence into a new paragraph 2.32a:  3.32 The <b><u>latest Inner Green Belt work Review 2012</u></b> , undertaken jointly with Cambridge City Council, examined the Green Belt in detail and found a number of small areas on the edge of Cambridge that are not considered of long term importance to Green Belt purposes. Given the level of need for homes and jobs, it is considered that exceptional circumstances exist to justify their release. These comprise a site between Huntingdon Road and Histon Road as an extension to the housing allocation carried forward from the Local Development Framework (Policy SS/2) and a site on Fulbourn Road as an extension to the Peterhouse Technology Park (Policy E/2). <b><u>The independent Inner Green Belt Review 2015 for both Councils reached similar conclusions about the importance of land on the edge of Cambridge for Cambridge Green Belt purposes.</u></b>  <b><u>2.32a</u></b> In addition, land is released from the Green Belt at Sawston, Impington and Comberton (Policy H/1) to meet the overall need for housing and to provide a flexible and responsive package of sites that will best meet identified needs.
SC11	24	Paragraph 2.33	Delete paragraph 2.33:

			<del>'2.33 The Green Belt has also been extended to provide countryside separation between Waterbeach village and the proposed new settlement north of the village based on Waterbeach Barracks and airfield site. The NPPF allows for additional areas of Green Belt to be established if there is a significant change in circumstances, such as the creation of a new settlement. This area will be important for maintaining the village character of Waterbeach, and warrants the level of protection afforded by the Green Belt in order that it remains open.'</del>
SC12	25	Policy S/5 Provision of New Jobs and Homes	Amend criterion b of Policy S/5 to read:  'b. <del>19,000</del> <b>19,500</b> new homes, including affordable housing <del>and 85 Gypsy &amp; Traveller pitches.</del>
SC13	25	Paragraph 2.34	Amend paragraph 2.34 to read:  '2.34 The Cambridge Sub Region Strategic Housing Market Assessment 2012 (SHMA) <del>identifies the objectively assessed</del> <b><u>took an integrated approach to the identification of the</u></b> need for additional jobs and homes in South Cambridgeshire over the plan period. <b><u>Additional assessment of Objectively Assessed Need was carried out in 2015 to take account of national planning guidance published after the submission of the Local Plan to consider issues around the latest national household projections, market signals and affordable housing.</u></b>
SC14	25	Paragraph 2.37	Amend paragraph 2.37 to read:  '2.37 <del>The SHMA, It</del> identifies a need for 19,000 new homes <del>and 22,000 jobs</del> in South Cambridgeshire by 2031. <del>This takes account of natural change in the existing population, including demographic changes such as an ageing population, having regard to the latest information available, including the Census 2011. It also takes account of forecast migration to South Cambridgeshire to support growth in the local economy. Should the economy perform less well than forecast then a revision to the Local Plan for a corresponding reduction in the number of new homes may be necessary. The SHMA It provides a balance between jobs and homes across the HMA and confirms that there is no additional outstanding backlog arising from the Local Development Framework.'</del>
SC15	26	After paragraph	Add a new paragraph 2.37a:

Mod. No.	Local Plan Page	Policy / Paragraph	Proposed Modification
		2.37	<p><b><u>'2.37a The Objectively Assessed Need: Further Evidence published in November 2015 takes account of national guidance published after the submission of the Local Plan, the CLG 2012 national household projections, market signals and affordable need. Compared with the SHMA methodology with its integrated approach to jobs and homes it is slightly higher. It identifies a need for 19,337 new homes in South Cambridgeshire by 2031. The higher of the two figures is taken to represent the full objectively assessed need for South Cambridgeshire and in the interests of positive planning has been rounded to 19,500 for the purposes of the plan requirement.'</u></b></p>
SC16	26	Paragraph 2.38	<p>Amend paragraph 2.38 to read:</p> <p>'2.38 The SHMA includes consideration of need for affordable housing. <del>Policy H/3</del> <b>Policy H/9</b> in Chapter 7: Delivering High Quality Homes requires the provision of affordable housing to respond to an identified high level of need. SC17	26	Paragraph 2.39	<p>Amend paragraph 2.39 to read:</p> <p>'Over the plan period, the figure of <del>19,000</del> <b>19,500</b> new homes implies an average delivery rate of <del>950</del> <b>975</b> homes per year. While less than the Core Strategy 2007 annualised average of 1,176 homes, for comparison over the period 2001 to 2011 a total of 7,663 homes were built at an average of 766 homes per year and the Local Plan therefore represents a consistent step change in housing delivery over a lengthy period. <b><u>The phasing of housing delivery is dealt with in Policy S/12.</u></b></p>
SC18	26	Paragraph 2.40	<p>Amend paragraph 2.40 to read:</p> <p>'2.40 Taking account of all forms of housing supply, comprising: completions in 2011-<del>1512</del> (the first <del>four</del> <b>years</b> of the plan period) of <del>696</del> <b>2,735</b> homes; supply of housing on the <del>major sites existing allocations</del> <b>in adopted plans (including those with planning permission)</b> expected by 2031 of <del>11,113</del> <b>8,771</b></p>

This required sufficient new land to be identified to deliver a further <del>5,000</del> <u>4,365</u> new homes in the district between 2011 and 2031.'
SC19	27	Policy S/6: The Development Strategy to 2031	Amend part 3 of Policy S/6 to read:  '3. The following 3 new strategic scale allocations are proposed for housing-led development with associated employment and supporting services and facilities to meet the majority of the additional development needs to 2031 and beyond:  d. A new town north of Waterbeach for 8,000 to 9,000 homes, <del>1,400 of which by 2031</del> ; e. A new village based on Bourn Airfield for 3,500 homes <del>1,700 of which by 2031</del> ; f. A major expansion of Cambourne for a fourth linked village of 1,200 homes, all of which by 2031.'
SC20 a/b/c	29	Figure 2: Key Diagram for Cambridge and South Cambridgeshire	Amend Figure 2 as follows:  <ul style="list-style-type: none"> <li>• SC20a - Add the allocation of a new employment site at Cambridge Biomedical Campus (Policy E/1B) in modification in SC-MM184.</li> <li>• SC20b - Amend notification on key to change <del>Proposed Science Park Station</del> to read <u>Cambridge North Railway Station</u></li> <li>• SC20c - Change the boundary of the proposed housing allocation north of Cherry Hinton (Policy SS/3 1b).</li> </ul> <p><i>Refer to figure at the end of this schedule.</i></p>
SC21	30	Paragraph 2.44	Amend paragraph 2.44 to read:  '2.44 Cambridge City Council and South Cambridgeshire District Council jointly reached the view on the extent of change on the edge of Cambridge where only revisions to the inner Green Belt boundary are proposed in the Local Plans including a change to the boundary of the site between Huntingdon Road and Histon Road in South Cambridgeshire for housing that would not increase the overall number of homes currently planned but instead provide more room to ensure a

			high quality development (see Chapter 3 Strategic Sites, Policy SS/2), and <del>an</del> <b><u>employment allocations for the expansion of Cambridge Biomedical Campus, and</u></b> south of Fulbourn Road as an extension to Peterhouse Technology Park (see Chapter 8 Promoting a Strong and Competitive Economy, <b><u>Policy Policies E/1B and E/2</u></b> ).'.
SC22	30	Paragraph 2.45	<p>Amend paragraph 2.45 to read:</p> <p>'2.45 Two new settlements – a new town north of Waterbeach and a new village at Bourn Airfield - and a major village expansion at Cambourne will provide the majority of the additional housing required by 2031. The preference to allocate all three strategic sites was influenced by the long lead in times for new settlements which will therefore come forward later in the plan period and continue developing beyond 2031. Without including a major expansion of Cambourne, a significant amount of development would be required at villages and would result in the sort of dispersed development strategy confirmed as being unsustainable. <b><u>In January 2017 the Council resolved to grant planning permission for a mixed use development including 2,350 homes at Cambourne West.</u></b> The timing of development at Bourn Airfield new village has regard to the longer lead in times for the development of new settlements and so that the remainder of Cambourne is well progressed before any development starts at Bourn Airfield. This will also help provide additional flexibility and ensure a continuous supply of house building land. <del>The new strategic sites will provide 4,370 homes in the plan period. Waterbeach not starting until towards the end of the plan period has the benefit of ensuring that delivery at Northstowe will be well established before another new town development begins, with about half the town having been built by the time Waterbeach starts delivering.'</del></p>
SC23	31	Policy S/7: Development Frameworks	<p>Amend parts 1 and 2 of Policy S/7 to read:</p> <p>'1. Development and redevelopment of unallocated land and buildings within development frameworks <b><u>(as shown on the Policies Map)</u></b> will be permitted provided that:</p> <p>2. SC24	32	After Paragraph 2.51	Add new paragraph 2.51a:  <b><u>'2.51a A local community preparing a neighbourhood plan may wish to make allocations for community led proposals in a neighbourhood plan that lie outside of the development framework of a village. SC26	33	After paragraph 2.54	Add new paragraph 2.54a:  <b><u>'2.54a For the purposes of village classification and related Local Plan policies, part of Pampisford parish west of London Road on the southern end of Sawston will be treated as if part of the Rural Centre of Sawston. It is shown as an area covered by another map on the Pampisford Inset of the Policies Map. It remains part of Pampisford parish.'</u></b>
SC27	35	Policy S/11: Infill Villages	Include ' <b><u>Streetly End</u></b> ' in the list of Infill Villages in Policy S/11 part 1.
SC28	36	Policy S/12: Phasing, Delivery and Monitoring	Amend parts 1 and 2 of Policy S/12 to read:  '1. The Local Plan aims to achieve a continuous high level of housing production throughout the plan period to support predicted and actual jobs growth. <b><u>The housing trajectories for Cambridge and South Cambridgeshire, as updated each year in the Annual Monitoring Report, will be considered together for the purposes of phasing of housing delivery, including for calculating 5-year housing land supply in development management decisions that concern housing development. Five-year housing land supply will be calculated using the Liverpool Method and a buffer of 20%.</u></b> Housing sites are not <b><u>deliberately</u></b> phased, <b><u>with the exception of:</u></b>  a. <b><u>New town at Waterbeach Barracks – to start delivering housing in 2026, unless otherwise determined through a review of the Local Plan;</u></b>  b. <b><u>New village at Bourn Airfield – to not start</u></b>

			<p><del>delivering housing before 2022, unless an undersupply of housing earlier in the plan period is demonstrated such that it needs to come forward earlier, including to provide an adequate 5-year housing land supply.</del></p> <p><del>2. The Council will provide a 5% buffer as part of its 5-year housing land supply, met mainly through windfalls.'</del></p> <p>Insert two additional criteria into the list of triggers included in part 3 of the policy:</p> <p><b><u>'h. Review Development Management processes;</u></b>  <b><u>i. Consider undertaking co-operation with other local authorities, including through duty to co-operate.'</u></b></p>
SC29	36	Paragraph 2.60	<p>Amend paragraph 2.60 to read:</p> <p>'2.60 An important aspect of the Local Plan is to ensure that there will be a continuous supply of suitable, available and deliverable housing land to meet housing needs over the whole of the plan period. The allocations in the Plan have been made with the aim of ensuring a flexible and continuous supply of housing. To this end, the Council does not propose to phase the timing of housing development, <del>except in two important cases:</del></p> <p>1. <del>New town at Waterbeach Barracks — It is not expected that the new town will be able to deliver housing until towards the end of the plan period. This takes account of considerable experience in delivering new settlements in the district (Bar Hill, Cambourne and Northstowe). The Plan therefore takes a realistic view of delivery of a new town which is partly about the development needs in the plan period to 2031 but allocation is also about development needs in the period beyond and the recognition that given the long lead in time that, like Northstowe, if a new town is to form part of the long term development strategy, a decision to allocate needs to be made in this Local Plan. In reaching this view, the Council has allocated significant major sites elsewhere to provide for needs in the most sustainable way. Therefore to ensure a continuous supply of house building land, it would not be appropriate for Waterbeach to come forward significantly earlier than envisaged in the housing trajectory and more</del></p>

Mod. No.	Local Plan Page	Policy / Paragraph	Proposed Modification
			<p><del>significantly, to avoid competition with delivery at Northstowe and Bourn Airfield with negative impacts on those other developments. Therefore, Waterbeach is phased to start delivering housing in 2026 and any earlier provision can only take place through a review of the Local Plan.</del></p> <p><del>2. — New village at Bourn Airfield — Given the expected level of delivery at Waterbeach new town, the new village at Bourn Airfield is also required to deliver housing in the plan period to ensure a sustainable pattern of development and not require significant levels of housing in a distributed pattern across existing villages. However, to provide flexibility and not to rely solely on major developments given their lead in times and greater vulnerability to slow down in adverse economic conditions, based on recent experience, the Council sees a need to allocate some development in existing villages. The start of development at Bourn Airfield should not start delivering housing until 2022 as part of a flexible package of sites and to ensure a continuous supply of house building land. However, if there were delay in delivery in other major sites, the Plan allows for Bourn Airfield to come forward earlier.<sup>1</sup></del></p>
SC30	37	Paragraph 2.61	<p>Amend paragraph 2.61 to read:</p> <p><u>'2.61 The South Cambridgeshire Housing Trajectory set out in Figure 3 included and updated each year in the Annual Monitoring Report illustrates the expected rate and phasing of delivery of new homes. It demonstrates how the objectively assessed need for an additional <b>19,000 19,500</b> homes between 2011 and 2031 could be achieved. This represents an average of <b>950 975</b> homes a year but the delivery of homes will vary over the plan period responding to individual site circumstances and changes in the national economy. <b>As outlined in paragraph 2.12a, the Councils have agreed that the housing trajectories for both areas be considered together for the purposes of housing delivery, including calculation of 5-year housing land supply in development management decisions that concern housing development. This is consistent with the development sequence and spatial development strategy for Cambridge and South Cambridgeshire, and the phasing of housing delivery reflecting that strategy. 			<p><u>urban area of Cambridge will deliver in the early and middle part of the plan period. Delivery in South Cambridgeshire will be greater in the middle and latter parts of the plan period, in particular as the fringe sites build out from the edge of Cambridge and move across the administrative boundary into South Cambridgeshire and as the new settlements come forward. There will also be some housing in larger villages early in the plan period.</u> All dwelling figures in the trajectory are net additional dwellings (i.e. completed dwellings minus losses of dwellings). The <del>trajectory relies</del> <u>trajectories rely</u> on information about sites which have the potential to deliver dwellings over the next 15 years and beyond, <del>taken from the Strategic Housing Land Availability Assessment and work on Local Plan allocation sites.'</del></p>
SC31	31	Paragraph 2.63	<p>Amend paragraph 2.63 to read:</p> <p><del>'2.63 The Councils <u>has have</u> a record of providing significant levels of housing and <u>has have</u> a significant level of identified housing supply. The Council has also continued to maintain up to date development plans. The development strategy in the Local Development Framework 1999-2016 was always expected to deliver fewer than the annualised average number of homes in the first part of its plan period, with higher than the annualised figure in the later years once the major developments come forward, taking account of their longer lead-in periods. The development strategy for Cambridge and South Cambridgeshire has been carried forward from previous plans, and includes two further new settlements. That was beginning to occur when the recession hit in 2008 and progress on the major sites stalled temporarily. The severe slow down in the house building industry had the effect that in recent years the Council has not had could not demonstrate a 5 year land supply against the Core Strategy 2007 target, particularly impacted by the reducing amount of the plan period to 2016 remaining. Under these circumstances the appropriate methodology for calculating five year housing land supply across the two authorities has been confirmed as being the Liverpool methodology. Council considers that the normal 5% buffer is the appropriate buffer for the South Cambridgeshire Local Plan with an end date of 2031. In response to historic levels of delivery, the appropriate buffer is 20%.'</del></p>

SC191	139	Paragraph 7.24	Amend paragraph 7.24 to read:

Mod. No.	Local Plan Page	Policy / Paragraph	Proposed Modification
			<p>'7.24 In order to deliver a wide choice of high quality homes, widen opportunities for home ownership and create sustainable, inclusive and mixed communities, it is important that we plan for a mix of housing based on the needs of different groups in the community. The high cost of housing locally also affects the size of home that many people can afford, even if their preference would be for a larger property, and it is important to provide for everyone's needs and help create mixed and balanced communities. <b><u>The Council will encourage the creation of sites for starter homes within the district so that first time buyers are given more opportunities to live in the district. Also the Council will support those people wishing to build their own homes.</u></b> The private rented sector plays an essential role in the housing market. The Census 2011 identifies a tenure change to private rented of 3.1% from the Census 2001 for South Cambridgeshire. Affordability within the private sector is a major concern for the District. The increase in size of deposit required for both market and shared ownership means there is likely to be a significant demand for private rented accommodation from low to middle income households. We will support the private rented sector to grow through build to let, to meet the growing demand for rented homes as part of the market element of housing developments.'</p>
SC192	140	After paragraph 7.27	<p>Add new paragraph 7.27a:</p> <p><b><u>'7.27a Custom and self build housing is housing built or commissioned by individuals (or groups of individuals) for their own occupation. In October 2015 there were 229 people registered on the South Cambridgeshire Right to Build register which had been open since January 2015. New applications now average around 10 per month. This policy helps local residents develop their own lower cost market housing, supports the local economy by providing work for local builders and tradesmen, increases the diversity of housing supply, and will facilitate innovative designs and the development of more sustainable houses.'</u></b></p>

The Council considers that the need for jobs can comprise exceptional circumstances justifying a review of the Green Belt so far as this would not cause significant harm to Green Belt purposes. Whilst there is no overall shortage of employment land within South Cambridgeshire for high-tech and research and development companies and organisations, the findings of the new study provide an opportunity to allocate land for an extension to the CBC to provide high quality biomedical development on the edge of Cambridge with its locational benefits, without causing significant harm to the purposes of the Cambridge Green Belt.</u></p> <p><u>8.14e Addenbrooke's Hospital is to develop a new clinical waste facility (energy from waste) to replace an existing facility which will supply energy to clinical buildings for Cambridge University Hospitals NHS Foundation Trust. Access to good quality open space and children's play facilities has significant benefits for community health and wellbeing. ## Appendices:

### Main Modification No. SC273

Add a new Appendix Aa after Appendix A.

### New Appendix Aa: Five-Year Housing Land Supply

Five-year housing land supply will be calculated using the Liverpool methodology, which has been determined as appropriate for Cambridge and South Cambridgeshire and which spreads any shortfall in supply at the point of calculation over the remainder of the plan period. A 20% buffer is also included in response to historic levels of delivery.

The methodology for calculating five-year housing land supply is set out in figure A1 below:

Figure A1: Methodology for Calculating Five-Year Supply

<u>(a) Housing requirement in the plan period</u>	<u>Net number of new homes required in the plan period (2011 to 2031) as set out in Policy S/5 of the South Cambridgeshire Local Plan and Policy 3 of the Cambridge Local Plan.</u>
<u>(b) Completions so far in the plan period</u>	<u>Net number of new homes completed so far in the plan period, as set out in the Annual Monitoring Report.</u>
<u>(c) Number of dwellings left to deliver in the plan period (= a - b)</u>	<u>Calculated by subtracting the net number of homes completed so far in the plan period from the housing requirement.</u>
<u>(d) Number of years of plan period left</u>	<u>Number of years of the plan period left in which to deliver the housing requirement.</u>
<u>(e) Annualised average requirement for the remainder of the plan period (= c ÷ d)</u>	<u>Calculated by dividing the number of dwellings left to deliver by the number of years of the plan period left.</u>
<u>(f) Five year supply requirement (= e x 5)</u>	<u>The requirement to meet in the next five year period. Calculated by multiplying the annualised average requirement by five.</u>
<u>(g) 20% buffer to be added to the five year supply requirement (= f x 0.2)</u>	<u>A 20% buffer in addition to the five year supply requirement should be added in response to historic levels of delivery</u>
<u>(h) Five year supply requirement with 20% buffer (= f + g)</u>	<u>Five year supply requirement plus 20% buffer, against which predicted housing supply is assessed.</u>
<u>(i) Number of dwellings predicted to be completed in the five year period</u>	<u>Net number of new homes predicted to be completed in the five year period, as set out in the housing trajectory published in the Annual Monitoring Report.</u>
<u>(j) Five year supply (= i ÷ h x 5)</u>	<u>Calculated by dividing the number of dwellings predicted to be completed in the five year period by the five year supply requirement with the 20% buffer, and then multiplying by five.</u>

**Figures A2 and A3 below summarise the housing land supply position for South Cambridgeshire and Cambridge individually and jointly as at November 2017 for the five-year periods 2017-2022 and 2018-2023, as contained in the Annual Monitoring Reports 2017. The Councils both individually and jointly demonstrate a five year housing land supply using the methodology above. The Council's five year supply will be published each year in their Annual Monitoring Reports. These should be consulted for the most up to date position on housing supply.**

Figure A5 below shows past and projected completions for Cambridge and South Cambridgeshire over the plan period (2011/12 to 2030/31). In total, the plans must make provision for a minimum of 33,500 homes over this period, which is represented in the graph by the black ‘plan’ line (the combined annual housing requirement of 1,675 net homes). It also includes a ‘manage’ line, which shows the outstanding balance of completions relative to cumulative delivery.

## **Modification No. 284**

Add new Appendix D detailing the Strategic Policies to be used in the preparation Neighbourhood Plans.

### **New Appendix D: Strategic Policies in South Cambridgeshire**

#### **Strategic Policies in South Cambridgeshire**

**According to the National Planning Policy Framework (NPPF) a local planning authority should set out clearly the strategic policies for their area (para 184). There is guidance provided at national level for identifying strategic policies both within the National Planning Policy Framework (NPPF) – paragraph 156 and the National Planning Practice Guidance (NPPG) (paragraph 074 -077 Ref ID: 41-074-20140306).**

**The Council has used this to identify the strategic policies in the Submission Local Plan.**

#### **The Criteria used for identifying Strategic Policies Extract from NPPF**

**Local planning authorities should set out the strategic priorities for the area in the Local Plan. This should include strategic policies to deliver:**

- 1. the homes and jobs needed in the area;**
- 2. the provision of retail, leisure and other commercial development;**
- 3. the provision of infrastructure for transport, telecommunications, waste management, water supply, wastewater, flood risk and coastal change management, and the provision of minerals and energy (including heat);**
- 4. the provision of health, security, community and cultural infrastructure and other local facilities; and**
- 5. climate change mitigation and adaptation, conservation and enhancement of the natural and historic environment, including landscape.**

#### **Extract from NPPG**

**When reaching a view on whether a policy is a strategic policy the following are useful considerations:**

- A. whether the policy sets out an overarching direction or objective**
- B. whether the policy seeks to shape the broad characteristics of development**
- C. the scale at which the policy is intended to operate**
- D. whether the policy sets a framework for decisions on how competing priorities should be balanced**
- E. whether the policy sets a standard or other requirement that is essential to achieving the wider vision and aspirations in the Local Plan**
- F. in the case of site allocations, whether bringing the site forward is central to achieving the vision and aspirations of the Local Plan**
- G. whether the Local Plan identifies the policy as being strategic**

**These criteria have been used to identify why a policy is considered to be strategic – for NPPF criteria from 1- 5 and for NPPG from A-G. The following table identifies the strategic policies in the Submission Local Plan.**

#### **Table identifying Strategic Policies in the Submission Local Plan**

**Area Action Plans:**

**The adopted Area Action Plans (AAP) that are part of the Local Development Framework for the district are considered to be strategic to the delivery of homes and jobs within the district and therefore all policies within them are considered strategic. The adopted AAPs are Northstowe AAP; Cambridge East AAP; Cambridge Southern Fringe AAP; and NW Cambridge AAP. Policies in any new Area Action Plans prepared and adopted will also be considered strategic.**
