

Race Equality Scheme

2005 – 2008

Draft for public consultation

The principles set out in this Race Equality Scheme will be implemented following Council approval in January 2006. At the same time, this is a working document. The Council would welcome comments by the end of March 2006 on how the Scheme can be developed, within the resources available, in order to meet statutory requirements and the needs of the local community.
