Ref Premises Licence for J&DE LTD & Ashe House School Lane Chittering

Dear

I object to the above application on the grounds of Highway Safety

The property and entrance are very close to the busy junction on school lane and the A10

.School lane is the only access for the residence of the small hamlet if an accident blocks off this junction the residence have no means of getting to or from their homes as we have experienced following the A10 having to be closed for 10 hours at this junction.

If a large vehicle is waiting to exit the lane the entrance to the property will be blocked so this could potentially create a backup of other traffic trying to come into the lane.

The property is opposite the now closed public house but part of their opening conditions was that all the deliveries had to be via the carpark of the A10 not at the side entrance from school lane.

There is a business park in the lane that has regular deliveries throughout the day and the farm land is managed by contractors thus meaning that all the farm machinery has to access the farm land from school lane so creating a huge amount of traffic at times during the day.

Yours sincerely
