Project	Hook Cards & accompanying Design Time Educational Resource	
<p>This application has been deferred at two previous Grants advisory committee meetings. Members requested the applicant explain the project in their own words. The description of project as given by GLIE: "Hook Cards are designed to compliment the great teaching and learning that takes place in school. They subtly encourage learners to discuss and consider issues regarding sustainability and equality, in turn building compassion. The county and district plan highlights its determination to assist communities becoming more sustainable, building the skills required for that to happen. I wholeheartedly feel that the most impactful way for that to happen is through schools. Our Hook Cards and the resources/ assistance we provide for free will no doubt build skills and knowledge regarding this. Schools can decide the time they can commit to implementing our resources, be it a 15 minute discursive activity per week to an actual lesson within classes weekly timetable. The resources we produce all evolve around our Hook Cards. It is our intention, should our application be granted, that 100 South Cambs schools and community groups will receive a pack of Hook Cards, highlighted as courtesy of the district council. With the cards, I will include an invite for schools to access free online learning/ training that will show how they can teach their children how they can live sustainably and become fair, inclusive and active members of their community and society. "</p>

Project Type	Equipment/capital purchase	
Documentation Status	Incomplete	
Project (officer Summary)	Orchard road community play area	
<p>Following the successful improvement of another small area of public land in the village the Orchard Road Community Group has created a clean usable space from the grass area in orchard road and have already placed 5 picnic benches on one end of that space . The applicant states that as a neighbourhood they are keeping the area clean and tidy and cutting the grass weekly so the area can be enjoyed by all members of the public. This grant is to fund the purchase, delivery and installation of two 50-litre litter bins. These bins will be be emptied by the ORCG. The applicant expects that if the bins prove useful and used, the parish council will take on emptying them in the future. £110 has already been raised towards this project by donations from local residents.</p>

Project Type	Equipment/capital purchase			
Documentation Status	Incomplete			
Project (officer Summary)	Memorial Hall Cycle Shelter			
<p>This application requests a funding contribution for the purchase, delivery and erection of a cycle shelter in the Memorial Hall car park, converting one car parking space into 10 cycle spaces. The applicant states that the hall's users agree that a cycle shelter would be an asset to the hall (Users include diverse groups such as WI, Meridian Quilters, Messy Pups, Tang So Doo Club, Playtimers). The village extends beyond a comfortable walking distance along one direction, which prompts hall users to drive. The charity hopes that a proper cycle shelter will encourage residents to leave their cars at home. The Charity states that the hall is easily accessible by bike from surrounding villages using existing cycle paths. The applicants have also applied to FCC Communities Foundation (www.fcccommunitiesfoundation.org.uk) for a grant of up to £2000. If successful, the Charity itself would fund the remaining difference and VAT of £1604.00 to enable</p>

Project (officer Summary)	Milton Colts FC - Renovation of pitches at North Lodge Park Milton			
<p>This application is for part funding of a Perrot Rollcart Travelling Sprinkler, to provide irrigation and allow maintenance actions on the football pitches at North Lodge Park, Milton. The maintenance actions include Vertidrainage, fertilising & overseeding of the pitches. The applicant feels that with the right irrigation the pitches can return to an improved condition allowing more games of football to be played by the children of the village and avoiding multiple cancellations of fixtures. According to the applicant the pitches were recently inspected by Cambridgeshire FA who rated the pitches as poor due to the hard nature of the ground and the poor/sparse grass covering. £400 has been raised already towards this project from other sources.</p>
