

Appendix C - Summary of unfunded projects in Round 3 of the ZCC Grant Scheme.

Project	Project Description	Benefits	Shortcomings	Amount (£)
Community Buildings				
Landbeach Village Hall Charitable Trust	Install solar PV panels on the south facing roof of the hall	Generates all electricity needed for hall plus 30% explored to grid.	Brief application with high total cost. No mention of energy survey, or energy conservation measures. No evidence of community engagement. No part funding to support application.	12,708
Cambridge Gurdwara	Replace gas boiler and fluorescent lighting with more efficient gas boiler and fluorescent lighting.	Good attitude towards sustainability and good community engagement.	No replacement with green alternative and high total cost at £20,298.	14,298
Gamlingay Community Centre.	Replace worn, bulky general waste bins with three new ones to encourage recycling.	ECO hub uses no fossil fuel so good example of energy efficiency and good community engagement.	Doesn't reduce fossil fuel energy use itself and no indication of the recycling destination.	2,921
Nature				
Harston Parish Council	Planting 6 native trees in two locations	Advice sought from tree suppliers and consultation with local residents' group in agreement	Details of community engagement do not extend beyond their exemplary role although the community will be involved in future planting. More engagement is needed.	3,200
Fowlmere Parish Council	Clearing area of neglected land and adding wildflower seeds, a hedge, an oak tree and three benches	Careful thought to biodiversity and planting of native species. Benefit to local residents.	Half of amount is for benches, which is outside of our criteria. No plans for community engagement included. No part funding.	2,985
Milton Parish Council	Coppicing dying trees with new trees and clearing brambles to create a bund.	Advice sought from local tree surgeon. Community engagement through volunteers.	More detail needed on costs. Unclear if proposals would improve carbon sequestration or provide additional wildlife habitat	15,000

Other				
Cambridge County Council c/o Smart Journeys	To provide Northstowe residents with incentives to travel sustainably through vouchers, cycle training sessions and bike servicing.	Good community engagement and publicity and potential for expansion into other communities.	No part funding and high cost per person benefiting.	14,840
Eversdens Village Hall	To purchase 5 plant locks to secure bikes.	Visual impact and encourages locals to reduce car journeys. Value for money due to volunteer time	No quotes provided nor is evidence of wider engagement.	1,440
