2018/19 AUDIT FEES UPDATE.

Executive Summary

1. At the Audit Committee of 28th July 2022 the issue of the 2018/19 audit fees was discussed and it was proposed that a report be brought back to this committee on the issue. However following a meeting with EY it was agreed felt that as the the issue should be dealt with by Public Sector Audit Appointments (PSAA) are the contract holder they should carry out their usual for them to review and provide a ruling on what is an appropriate fee in this case. It is unlikely that their work will be concluded until November so this report provides a position statement of the situation as at the end of September.
