Importance: High

Hi,

I'm writing to object to the "Abington Kebab & Chips" van at the Great Abington Social Club on Pampisford Road, CB21 6AH. This is to the left of the driveway when you drive in, and it leads up to our company, ARCC Innovations.

I've been informed that this van is now permanently located on the social club grounds, serving from 4:30pm to 11pm, Monday through to Friday.

On behalf of my Site Director and our company's employees, we want to appeal the following points in order to have the food van removed:

1. As you can see from the photos enclosed, the social club premises is small, resulting in serious concerns about obstructions on the driveway. Our business is open from 9am to 5pm, so if their car park becomes or is full, this will have a significant impact on our business, preventing customers, staff, and couriers from driving in and out of the driveway.
2. We don't want people assuming our company is linked to this food van, granting them permission to park on our private property.
3. As we exit the driveway to the right, the sign chained to the post blocks our vision. This causes us to accelerate further into the road, which can lead to an accident if oncoming vehicles does not stop in time.
4. There are no pavements or yellow markings on Pampisford Road, which immediately causes traffic congestion if lorries, vans, and cars decide to pull over if they are unable to park on the premises.

Can you please confirm that this food van has a license to trade? If so, why weren't businesses and residential premises notified about this application? It appears strange that this has suddenly occurred and that we have had no communication or agreement about it. We had no pre-warning of this food van, therefore we were unable to propose or make any changes with regards to our premises and the surrounding areas.

I look forward to hearing from you.

Thanks,

Kind Regards,

ARCC Innovations Ltd
