Subject: Notice of Motion

Dear Richard,

I would like to submit the following motion to Full Council.

"This Council believes that a 10% tax on Mobility Scooters is fundamentally wrong. The tax will hit many vulnerable people in South Cambs.
We resolve to write to the Government Minister concerned stating our objection in the strongest possible terms".

Best Regards

James Hockney

Motion in the name of Cllr. Mrs Liz Heazell
Seconded by Cllr Sebastian Kindersley

Concern is mounting particularly amongst our sheltered housing residents and their families regarding our services provided for the vulnerable elderly. There is also mounting public concern on this issue.

While many SCDC sheltered residents have found the emergency cover very satisfactory, and realise that SCDC service charges are very much lower than in the private sheltered sector, there are many apprehensions being voiced about the prospect of more change, less staff on-site hours together with increased charges / rents.

Council agrees that it would be wise to subject all services for the vulnerable elderly whether provided by us or partners across the district, to a review . Such a review could be conducted by our own Scrutiny Committee, or as a pilot study by the county-wide Joint Accountability Committee.

Regards

Liz Heazell

South Cambridgeshire District Council

Council Meeting 26th November 2009

Notice of Motion from Councillor M.J. Mason

In the matter of the proposed development at Northstowe Council notes with concern, in spite of previous indications to the contrary that:-

- (a) further detailed planning applications are still awaited and that members, having previously approved additional staff appointments, are now being asked to make cuts in the planning and new communities sections.
- (b) the recommendations now being imposed by the Planning Inspectorate, are completely unrealistic in terms of housing target numbers to be completed within the LDF plan period.
- (c) the Immigration Service remains in occupation of the former airfield buildings without the benefit of planning permission.
- (d) Infrastructure improvements to the A14 and the construction of the guided busway has yet to be completed, with no Section 106 developer contributions likely to be forthcoming.

And instructs the Chief Executive and Leader to write to Communities and Local Government, Homes and Communities Agency and the developers, requesting a definitive public statement as to their current position and intentions for the site. Furthermore they be informed, with reference to (a) – (d) above and with the prospect of diminishing financial resources in the foreseeable future, that the policies in the Local Development Framework have become unsustainable and will not be implemented within the plan period.

Dear Patrick,
Please receive this motion for the Council meeting. I am assured of a second, but not sure which one it will be yet.
Many thanks,
Douglas

"The recent imposition of a secure email system has led to a considerable reduction in members reading communications intended for them. To improve communications with and between members: a) Members may request that emails to "elected@scams.gov.uk" are sent to their private email addresses, and b) Officers shall be instructed to use whatever personal email addresses Members wish when corresponding with them; except where the material is of a confidential nature, in which case the secure email system should still be used."

Hello Charlie

The Notice of Motion is in the name of James Hockney. Seconded by David Morgan.

This Council calls on the Government to do more to encourage householders and local shops to clear snow and spread grit on the paths and frontages of their properties. It calls on the Government to end the confusion over liability which is preventing this happening. The same lack of support and guidance is preventing Parish Councils and local businesses from clearing and gritting roads, footpaths, bus and school routes. It is a scandal that those wanting to help are prevented by a lack of leadership and by a Government failing to clarify the law.

Hello Patrick,
Please could you include the following motion in the agenda for the Council meeting on 28th January 2010.
Many thanks,
Cicely Murfitt

Motion for Council proposed by Cllr Murfitt,seconded by Cllr Heazell :

This Council warmly supports the excellent work done by the Village Warden Schemes within South Cambridgeshire in supporting our elderly residents. Council therefore requires the relevant portfolio holder to give a definite statement that the existing grant-aid for the scheme in the Mordens and other similar schemes will continue after the financial year 2010-2011.

South Cambridgeshire District Council
Council Meeting 28th January 2010

From Councillor Mike Mason

Notice of Motion

Council Notes the grave concern of Cambridgeshire Taxpayers with reference to the County Council's failure:-

- (i) to deliver any part of the Guided Bus System, now three years after the projected completion date.
- (ii) to keep the public, City and District partner Authorities properly informed as to contractor performance and cost overrun.

And hereby formally requests the County Council to issue a comprehensive public statement concerning the future operation and likely cost of the Cambridgeshire Guided Bus Scheme.

Standing in the name of Councillor Mike Mason

Received by Democratic Services at 23.25 on 19 January 2010.

I would like to include a Notice of Motion in this month's Council agenda as follows:-

"This Council appreciates the sterling efforts made by our Staff in continuing to deliver services to all our residents during the difficult weather conditions over Christmas and into the New Year. We ask that the Chief Executive conveys this message to all Staff at Cambourne. We also ask the Executive Director to pass on our gratitude to the refuse collection operatives, housing repair teams and all those staff working from the Waterbeach depot."

Please acknowledge receipt

Nigel Bolitho (hope the plant has been watered recently!

Subject: Motion for Council

Hi Patrick - a Motion for Council proposed by me..

"This Council notes with alarm the increasing lack of democratic accountability in South Cambridgeshire"

Many thanks - best wishes - Sebastian

Motion to be proposed by Lorraine Morgan and seconded by David Bird

This Council will, when considering future planning applications for residential development at Cambourne, be mindful of the potential for flood risk being increased in the event that the cause of flooding at the Lower Cambourne Terminal Pumping Station has not been fully addressed.

Further, this Council instructs officers to liaise with the Environment Agency such that senior Directors of the relevant Developer companies and Anglian Water are put on formal notice of the powers of the Environment Agency to take criminal proceedings under section 85 of the Water Resources Act 1991. In the interim Council instructs officers to collect evidence so that any repeat incidents alternative proceedings can be considered under any of the following enactments - s.79 of the Environmental Protection Act 1990, s.59 of the Building Act 1984, s.17 of the Public Health Act 1961.
